How To Start On YouTube Step-By-Step For Beginners — without fancy gear, without techy stuff, and without spending hours on each video. Provided you use this hybrid model and follow one simple rule.

Now, one thing I want to say right off the bat, because I always get this question. I do address it later in the presentation, but I want to say it now.
(1) Yes, this is a LIVE session.
(2) This is for you if you're a complete beginner. I'm going to teach you the right things from the beginning — the fundamentals, the first principles, the most important stuff on YouTube. That way you don't have to unlearn bad habits.
And you're going to have to forget a lot of what you've learned up to this point. Because a lot of it just doesn't apply to this type of YouTube channel — and it's probably the reason you're spinning your wheels, overthinking, and stuck in analysis paralysis.

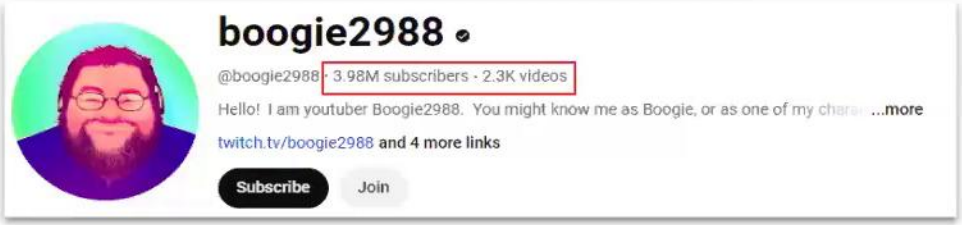
You *Don't* Need to Be a YouTuber to *Win* on YouTube

Shane Hummus



In a full-disclosure interview, he revealed earning just $45,000 last year from YouTube Ad Revenue...

Most of his time is spent making entertainment content on YouTube.

The mental load and fatigue for the average person is overwhelming because:

- You have to be entertaining
- You have to be super extroverted
- You must constantly create silly ideas that don't generate revenue
- You get stuck in the 'content hamster wheel' and burn out

PhysicsWallah surges on IPO debut with $5.2 billion value

Strong listing signals fresh investor confidence in India's troubled edtech sector

11/18/2025 • Yassin El Hardouz

Indian education technology company PhysicsWallah made a forceful entrance to the public markets with a trading debut that pushed its valuation to about $5.2 billion. Shares climbed as much as 48.6 percent on the first day of trading on November 18, signaling a sharp rebound in investor appetite for edtech after a bruising few years. The listing comes against the backdrop of India's increasingly active IPO market, where hundreds of companies have already tapped public investors in 2025.

Guy is in a very difficult niche and we helped land a sponsor for his channel that is under 500 subs! This means he is monetized without even hitting his minimum monetization requirements on YouTube for AdSense. This is what it means to be making money even right from the start! I think what the brand is paying is $1,500!

The Secret of Creating Viral Thumbnails (GUIDE)

(Keep in mind, **this is not the technical portion of creating thumbnails**, that will be in a separate training. This is going to be the creative/theory portion of creating a thumbnail.)

The thumbnail is the thing that catches someone's attention initially.

This is why it's the most important because it happens downstream from everything else.

When a viewer first notices one of your videos, their eyes go from:

Thumbnail → Title → Intro

But it goes deeper than this.

What do you think is the first thing someone notices in a thumbnail?

It's the eyes.

If you have your face on your thumbnail, the eyes are the first thing they notice. THEN they notice the facial expression. Then they notice the text on the thumbnail. Then they may or may not notice the other parts of the thumbnail (background, props, emojis, etc). Then they will look at the title. Then they will click on the video and watch the intro.

So when you're designing your thumbnails, you want to have high-quality photos of yourself that are blown up to take up a large amount of the thumbnail AND it's easy to see **THE WHITES OF YOUR EYES.**

And I combined it with the x and checkmark style of the thumbnails I see from the channel "Teachingmensfashion"

If you want to do YouTube for a business THIS is the one

Before starting Shane's program I felt scattered when making YouTube videos. I didn't know which ones would work and then the idea of seo or titles or thumbnails felt overwhelming. Shane's program gave me the structure to know how to proceed and to stop avoiding. Great information given in multiple formats that is pragmatic and logical. This has taken the frustrating guess work out of video production. And the staff and coaches were always so responsive and never felt like they were doing "their job", it truly feels like they want me and my channel to succeed. PS - this is not a skimpy program, there are so many videos, extra trainings and one on ones with coaches.

"I was about to be laid off — now I make a full-time income from YouTube."

— Isaiah (Vocal coach — was weeks from layoff, now runs a thriving YouTube channel)

- Stuck at a job he hated, weeks from being laid off — with a YouTube channel that had barely any subscribers
- Started applying Shane's free YouTube content: vocal exercises that gave viewers a small win on the spot, building instant trust
- Just from my FREE content, he pulled in $20K in a single month — and quit his day job
- Then joined CGE and scaled it up: 9,000+ subscribers, 64 paying customers in a single quarter, $35K+ collected — now full-time

"I went from beginner to $186K+/month — with just a YouTube channel."

$186K+/month — with just a YouTube channel."

— Josh (Beginner YouTuber — built it into a $186K+/month channel)

- Was a small YouTuber about to give up — had the knowledge but no idea how to reach people at scale
- Worked with Shane to build the streamlined processes he was missing
- Within 6 months: $5K month → $10K month (full-time income) → $30K month
- Now making $186K+/month from YouTube

"I learned content isn't just about views — it's about making money. Now I'm doing $100K+/month."

— Antoine (Busy professional now making $100K+/month from YouTube)

- Was running a full-time job, real estate, and a YouTube channel — and burning out trying to do it all
- Started using Shane's system to produce high-quality videos in way less time
- Stopped chasing views and started making content built to actually make money
- Grew his channel by 800 subscribers and 30% more watch time in a single month — now $100K+/month from YouTube
